Footnotes	
NFS	- means the lens is currently not for sale at this time, but open to an offer.
MLU	- means the lens requires a camera with the Mirror Lockup function to use the lens.
RL	- means rectilinear lens.
PC-CA	- means perspective control (PC) and focus control lens (CA), the latter meaning the outer element rotates changing the plane of focus.
w/ MD 1:1	- means the lens comes with the Minolta adaptor for 1:1 magnification.
Preset	- means the lens is a present aperture lens.
